Homework assignments constitute 40% of your grade. To succeed in this class, you must put your full effort into each HW assignment. Each submitted assignment must represent your own work.

In order to ensure academic integrity, any collaboration between students should be noted on the submission. In accordance with the Academic Integrity policy, all submissions should be representative of a student's work.

Homework assignments are due one week after they are assigned and should be turned in via LMS. The half-life of late assignments grade is 7 days, assignments will not be accepted after 14 days.

Days Late	Grade Multiplier
1	0.90
2	0.82
3	0.74
4	0.67
5	0.61
6	0.55
7	0.50
14	0.25
15+	0

Although homework will not be graded beyond 15 days, it should be noted that completing homework assignments is the best way to prepare for exams. If a special circumstance arises prior to the homework due date, it may be possible to receive an extension. Contact Prof. Danon directly if such a problem arises. If you believe your homework was graded unfairly or incorrectly, do not hesitate to contact me.
